

Science Fair

If bubbles are made from cold water, then will they be bigger?

If you sing to your plant, then will they grown faster?

If you keep a plant in the cupboard, then will it grow?

Find out! Do an experiment!

It's nearly time for the 10th Annual Cullen Science Fair. The Science Fair is an opportunity for students to engage in and learn the scientific process by completing and presenting a scientific experiment or project.

The projects will be "shown off" in the cafeteria during Open House on Thursday, February 26 from 6:00-7:30. The cafeteria will be open a half hour before classroom viewing and will stay open until the end of open house.

If you are interested in completing a science fair project, please sign and return the bottom portion of this letter no later than Thursday, January 15. Please indicate below if you would like a packet to help guide you through the project. If you would like to order a display board, please complete the form below, and include cash or a check made out to *Cullen PTA*.

----- Please cut and return to the School Office by January 15 -----

_____ in room _____ would like to complete a
Child's Name

Science Fair Project. Please send home a Science Fair Packet.
