

Science Fair

If bubbles are made from cold water, then will they be bigger?
If you sing to your plants, then will they grow faster?
If you keep a plant in the cupboard, then will it grow?

Find out! Do an experiment!

It's nearly time for the 11th Annual Cullen Science Fair. The Science Fair is an opportunity for students to engage in and learn the scientific process by completing and presenting a scientific experiment or project.

The projects will be "shown off" in the cafeteria during Open House on Thursday, January 30 from 5:30-7:00. The cafeteria will be open a half hour before classroom viewing and will stay open until the end of open house.

For information on how to complete a Science Fair project, go to the Cullen Elementary website and view the Science Fair Handbook. Please indicate below if you would like to order a display board and include cash or a check made payable to *Cullen PTA* no later than Friday, December 21.

----- Please cut and return to the School Office by December 21 -----

_____ in room _____ would like to purchase a
Child's Name

backboard to complete a Science Fair Project. _____
Parent Signature
